1.  Comment. According to the strength figures of 1,200 to 1,800 troops reported  the two regiments can be carried in the installation as previously. The 94th RL Regt (US) of the XXIX Gds Mtz Rifle Corps is vaguely confirmed  The tanks observed  should belong to the 19th Gds Mecz Regt of the 8th Gds Mecz Div. However, as several different types were observed, they may belong to the unidentified tank training battalion of the 8th Gds Mecz Div which however, is carried in the Heiterblick Kaserne.
